

Young Professionals Employability Program (YPEP)

Course Overview

The Young Professionals Employability Program (YPEP) is a comprehensive skill-building initiative designed to enhance career readiness for students and young graduates.

The program is structured as a 5-course package, covering essential areas such as communication skills, workplace etiquette, emotional intelligence, interview preparation, and professional development. Together, these courses equip learners with the practical competencies, confidence, and mind-set required to transition successfully from campus to corporate environments.

Objectives

- This course will help the students to become their best self and confident to present themselves while they enter into the professional field.
- Recall fundamental concepts of workplace communication, professional etiquette, and employability skills.
- Demonstrate effective communication through presentations, group discussions, and interview simulations
- Develop a professional resume, LinkedIn profile, and personal brand to showcase employability.
- Explain the importance of emotional intelligence, teamwork, and adaptability in professional settings.
